

# Fermented Beauty

Inheriting from ancient times

*adult pretty*

Fig is a food with a long history. It is a fruit said to have been loved by Cleopatra, one of the three most beautiful women in the world, to keep her beauty. It is often appears in the Old Testament, also painted on the ancient Egyptian mural.

Fig is said to be a fruit of longevity and abundant nutrition.

In order to maximize the high beauty effect of the figs, BiEST's ap (adult pretty) lines are fermented with honey origin yeast, and the Fermented Figs skin care series was born.

Fermented beauty that combines modern technology with the figs inherited from ancient Egypt, is a new line of BiEST Cosmetics that will lead women all over the world to be more attractive.
